This sort of student exchange has been the hallmark of our sister cities programs and would be of great benefit to the students personally, as well as to the strengthening of the relationship between our communities. The students would stay with host families, attend classes at Scottsdale high schools, meet with civic and community leaders, and visit Arizona's cultural and natural attractions. In addition to learning about our culture, the students would be expected to make several presentations on the culture of Uasin Gishu and Kenya.

Although the students would be responsible for the cost of their flights to Phoenix (as well as passport and visa costs), we are providing financial assistance. The students and chaperones would be fully hosted (housing, food, and transportation) during their stay in Scottsdale. This exchange follows up on highly successful student exchanges from Uasin Gishu in November 2016, April 2019, and April 2022.

We are excited to be continuing this important student exchange program.

George Hartz
Director, Treasurer, & Past President
